We will take your old stove in on a new Range, give you all it is worth. Did you ever stop to think an old worn out stove would soon burn up enough wood to pay for a new one? Adv. Lansden Hardware Co.

RURAL LETTER CARRIERS MEETING

The Putnam County Rural Letter Carriers Association met in the Federal court room in this city May 31, with but few members present. Our president, Mr. Hix, was absent, so Mr. T. D. Verble of Algood was elected president, pro-tem. Mr. Verble then took the chair and called the house to order at two o'clock.

The secretary then read the minutes of last meeting, also made report of treasury, both being satisfactory to the members, were approved and signed by the president. Our Postmaster, John B. Dow, and assistant Postmaster, W. Y. Bennett, were both present at this meeting. Both took great interest in the work. It seems to me that they are interested in us and in our welfare more than we are in ourselves, as they are always present at these meetings, and most of the carriers are not.

Postmaster Dow made quite an interesting talk.

We had with us two visitors from Nashville, one was a postoffice clerk and the other a railway mail clerk. Both the gentlemen made long and interesting talks which were enjoyed by all present.

Through their help we organized a county organization of all postal employees and it is hoped that every postmaster, clerk and carrier in the county will join this organization.

After these talks the association proceeded with its business and elected three officers for the ensuing year. A. D. Billingsley was elected president, H. W. Johnson, vice president, Walter Smith, re-elected Secretary and treasurer.

Walter Smith was elected delegate to the state meeting which meets in Nashville, July 5 and 6. H. W. Johnson was elected alternate.

Motion was made and seconded to adjourn, whereupon the meeting adjourned to meet again May 30, 1921. WALTER SMITH, Sec.

Get Rid of That Sour Breath

PEPSINOL Gets Rid of the Cause of Sour Breath

Sour breath is frequently warning of a complete physical breakdown, for it is an unfailing sign that undigested, fermenting food is making your stomach weak and filling your blood with acid poisons. This acidity makes your blood thin and watery, makes you thin and pale, weak and tired. Pepsinol overcomes this acid by insuring splendid digestion and helping to create the rich, strengthening blood that keeps you strong and vigorous. Pepsinol soon restores vitality after any illness by stimulating the appetite and restoring harmonious action of stomach, liver and kidneys.

Ford
THE UNIVERSAL CAR

There are more than 3,000,000 Ford cars in daily service throughout the world, and fully eighty per cent of these are Ford Touring Cars. There are many reasons for this, not the least of which is the simplicity in the design of the car, so easy to understand; likewise it is easy to operate; and mighty inexpensive compared to other motor cars. On the farm, in the city, for business and for family pleasure, it is the car of the people, and the demand is increasing every day. Let us have your order promptly if you want one.

NOTICE TO THE PUBLIC

I recently bought a spat new Oakland Car and after considering the rough roads and time it would take me to learn to drive it, I have decided to sell it. It is claimed that it is one of the best cars on the market for the price. I will sell thi car for \$1250, half cash, balance 6 and 12 months, notes with good security and bearing legal interest.

Dr. John Martin has one of these cars, Dr. Brown, Dentist, has one, also Prof. Kirkman of T. P. I. that he has used for several years. Car is a six cylinder, and is a very easy riding car. I would consider taking as part pay a No. 1 saddle and harness horse, four to five years old. Would not buy an aged horse at all. Car can be seen at Crawford & Moore's Garage, Public Square.

Hear the phonograph that baffled James Montgomery Flagg

Come in and test its marvelous realism for yourself

An audience of 2800 New Yorkers completely baffled! An Official Laboratory Model did it—actually rivalled Anna Case, one of the world's most brilliant sopranos, in a startling test at Carnegie Hall, on March 10th, 1920.

In our store, you can hear an instrument exactly like this famous Official Laboratory Model. You can test it for yourself—and see what a truly perfect realism it attains. We have equipped ourselves to give Mr. Edison's unique Realism Test.

The NEW EDISON

"The Phonograph with a Soul"

The instrument used on March 10th, 1920, in Carnegie Hall, New York, was an exact duplicate of the original Official Laboratory Model on which Mr. Edison spent three million dollars in research work.

We, too, have an exact duplicate of this three million dollar original. We guarantee that it is capable of sustaining precisely the same test made on March 10th, in Carnegie Hall, New York City.

This guarantee will be given in writing,—if you wish.

Our Budget Plan puts this guaranteed Official Laboratory Model within your reach. It's a thrifty way of buying. Ask about it when you come to hear the Realism Test.

Mr. Flagg's Story

of the Miraculous Proof given at Carnegie Hall, New York, on March 10th, 1920.

"Miss Case draped her beautiful self against the phonograph. One of her song recordings was put on the instrument, and they, Miss Case and the phonograph, sang together. Then she stopped, and her other self continued. Then together again."

"I looked away and then back again,—and it puzzled me to determine which was at the bat."

The Pianist

"Then the tallest pianist in the civilized world played a charming thing, accompanied by himself via the phonograph,—lifting his fingers away from the keys now and again. I could see him stop playing,—but I couldn't hear him stop."

The Dark Scene

"Then the big stunc of the recital. "Miss Case began singing with the phonograph. At a certain stanza the house was suddenly darkened. The song went on. I was shooting my ears out like periscopes to detect the second when she would stop. I was sure I got it. Then she seemed to be back again. The flood of lights came on,—but no Anna! Only the phonograph singing away."

It was quite wonderful,—and the audience applauded and laughed. Two girls behind me said 'Googracious!'

Read what the New York papers say:

"The twin-ship between Miss Case's singing, and the reproduction thereof, proved so close as to be often indistinguishable." —New York Globe.

"When the lights were lowered, it was impossible to tell when it was Anna Case, and when it was only her voice that was singing." —New York Evening Sun.

"The voice in the fluffy pink draperies and the voice in the mahogany box seemed one and the same." —New York Evening Mail.
